GENERAL QUOTATIONS
OF
BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue.* As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method, and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter *"f"* is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

3. The letter *"f"* prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

4. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are now "and interest" except where marked "f" and income and defaulted bonds.

STREET AND ELECTRIC RAILWAYS

In quoting street and electric railway bonds, we employ the same method as in quoting the bonds of steam railroads. The great majority of issues being quoted "and interest," we use no designating mark whatever where that is the case. On the other hand, we prefix the letter "*f*" where there is a deviation from this rule; in such cases the interest forms part of the price. Unless, therefore, "*f*" appears against a quotation, the buyer will understand that the accrued interest is to be added on. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where marked "f," and income and defaulted bonds.

d Price per share, not per cent. *k* Last sale. *n* Nominal. *s* Sale price. *t* Stamped stock. *x* Ex-dividend. *y* Ex-rights.

MISCELLANEOUS SECURITIES.

Quotations marked "*f*" indicate that accrued interest is included in the price. Prices not marked are "and interest" that is, purchaser has to pay accrued interest in addition to the price. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where Marked "f" and income and defaulted bonds.

a Purchaser also pays accrued dividend. *b* New stock. *d* Price per share, not per cent. *k* Last sale. *n* Nominal. *s* Sale price. *t* Ex-stock div. *x* Ex-div. *y* Ex-rights.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*f*).

The figures in the column *"to net"* indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

Bonds	Bid.	Ask.	To Net.

f Flat price. *b* Basis. Stamped 2½% until Dec. 1 1906. *n* Nominal.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the *closing day of the month preceding the date of issue*, though often are nominal. An asterisk (*) denotes sales. The letter (*h*) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

Where Names are Printed in Italics Fuller Returns may be Found in the Advertising Columns

ACCOUNTS SOLICITED

An intimate knowledge of the demands of Banks and Bankers has been gained by the official organization of

The First National Bank of Chicago

through the experience of the past half century. In that knowledge lies the value of a connection with this institution—the ability to serve that is appreciated by financial interests from coast to coast.

Correspondence is invited relative to the facilities afforded and the accommodations extended by this old, strong and conservative banking institution.

REVIEW OF OCTOBER.

The most momentous event of the month was the action of the Balkan States, in Southeastern Europe, in engaging in warfare with Turkey. This caused great depression in the security markets both here and abroad, induced tremendous liquidation of security holdings on foreign account, stopped further engagements of gold in London for importation into the United States, impelled all the great European banks to make unusual attempts to protect their gold holdings (the Bank of France virtually suspending gold payments), occasioned severe tension in the European money markets and brought about a rise in discount rates by all the leading European banks and created a general feeling of uneasiness. As the Balkan allies achieved success upon success, a widespread fear developed that the larger Powers might become involved and a conflict of gigantic proportions ensue. Fortunately, in the midst of the upheaval, a definite treaty of peace was concluded between Italy and Turkey in the war between the two countries over the control of Tripoli.

It became apparent at the very beginning of the month that momentous events were impending. Reports were pretty well authenticated that Bulgaria, Servia, Greece and Montenegro were all mobilizing their armies and that Turkey was doing the same. On Oct. 3 the draft of a collective note to be presented to Turkey by the four Balkan countries was received at all the Balkan legations in London, and it was stated that the foreign offices of the various Powers were to be made acquainted with its contents before its presentation to the Ottoman Government. The note demanded autonomy for Macedonia, Albania and Old Servia equal at least to that enjoyed by Crete under the protection of the Powers. The allies declared they intervened solely on behalf of their Christian brethren in the Turkish provinces mentioned. Meanwhile the war spirit was becoming rampant in Turkey just as it had already become in the Balkan States. The sudden development of the acute stage of these Balkan troubles had a very depressing influence on the European bourses, especially in Germany and Austria. In Berlin the selling of securities Oct. 1 and Oct. 2 was panicky, and in Paris a feeling of great uneasiness developed.

These developments came simultaneously with an active demand for gold. In its weekly statement Oct. 3 the Bank of England reported a loss of £2,735,524 gold (£1,700,000 representing shipments to Egypt and £100,000 to France), and this was followed the succeeding Thursday by a further net loss of £1,024,235, notwithstanding that in that week £871,000 gold

was obtained in the open market; £1,625,000 gold was exported, £1,105,000 going to Egypt, £350,000 to Germany, £150,000 to France and £20,000 to Malta. The Bank of France Oct. 3, as a result of the combined strain of the October payments and the Balkan crisis, reported a loss of 22,850,000 francs gold and the Bank of Germany in its weekly statement Oct. 2 had shown sensational changes, the loss in gold on hand reaching 100,379,000 marks, while discounts showed an expansion of 491,016,000 marks, loans an addition of 32,669,000 marks and circulation an increase of 574,268,000 marks. The Bank of France now began to decline to release any more gold. In other words, it and the other large French banking institutions temporarily suspended gold payments as a precautionary measure, paying out only notes. It hence became exceedingly difficult to exchange notes for gold in Paris; according to cable reports Oct. 4 gold was then quoted at 25 to 50 centimes premium on a 200-franc bill. The previous Monday (Sept. 30) £1,100,000 more gold (out of £1,500,000 of new Cape gold offered that day) had been secured for shipment to America, but with the development of acute tension on account of the Balkan troubles, a part of these engagements were later in the week canceled, and some £400,000 of the gold previously purchased for American account went into the Bank of England.

This was all before the actual outbreak of hostilities. On Oct. 8, Montenegro, one of the smallest of the Balkan States, formally declared war against Turkey. This step was wholly unexpected, and completely upset the plans of the Powers, which had contemplated joint pressure on both sides to prevent hostilities. Austria and Russia had accepted a French proposal that they act as mandatories of the Powers and make representations in the capitals of the Balkan States that the integrity of Turkey and the sovereignty of the Sultan must be maintained, the status quo respected, but that Turkey must grant measures of reform in Macedonia on the lines of the circular issued by Count Berchold, the Austrian Chancellor. Great Britain had not yet given her consent to the French proposal, but was expected to do so. The action of Montenegro in declaring war upset all calculations. As is usual under such circumstances, instant hostilities followed and the Montenegrin troops achieved important successes. When it appeared that it would be impossible to prevent an actual physical clash, there was a general rush to sell European government securities. French Rentes dropped below 90, Montenegrin bonds Oct. 9 (the day following the war declaration) declined 15 points and shares of the leading French banks and credit associations also showed sensational declines. In Berlin the demoralization was less severe, but bank and industrial shares Oct. 9 fell two to three points, while speculative shares declined 6½@7 points.

But worse depression was to come. On Saturday, Oct. 12, our Stock Exchange was closed, it being Columbus Day, which is a legal holiday in New York State. On the European exchanges it proved a day of wild excitement and severe losses. In London American share properties were heavily liquidated on Continental account. Canadian Pacific shares were under special pressure and declined 13 points (expressed in the New York equivalent), while Union Pacific declined 3⅛, Atchison 2⅛, Baltimore & Ohio 2⅜, Mil. & St. Paul 2¼, Reading 2⅜, Steel com. 2¼ and Amal. Copper 3 points. In Berlin the fall in prices ranged from 1 to 4 points in government stocks, 2 points in bank stocks and from 20 to 25 points in industrial shares. Fortunately an almost complete recovery in American securities took place in the London market on the following Monday (Oct. 14) before the New York Stock Exchange opened. Furthermore, at both Paris and Berlin the banks intervened to support the investment market. On the Berlin Bourse the panicky tendency was checked Oct. 14 by the energetic action of the leading banks, which, after a meeting, announced their intention of taking over as far as possible all securities of a legitimate character thrown on the market. This at once led to recoveries, notwithstanding further unfavorable news from the scene of conflict. At Paris on the same day concerted effort by French financial leaders and the Government had a similar assuring effect. The Bourse authorities placed a prohibition upon short selling and made it obligatory upon sellers to show the scrip or evidence that they had in their possession the securities they were offering for sale. Russian industrial securities were among the chief sufferers, but later St. Petersburgh banks relieved the situation by taking care of this section of the market. French rentes on Oct. 14 touched 87.97½, the lowest quotation recorded since 1890. British consols declined to 72½, thereby establishing a new low record.

The day named proved the turning point in the financial demoralization. Semi-official assurances were received that the Balkan war would be localized. The next day news was received that peace preliminaries between Italy and Turkey had been concluded, and this was accepted as additional evidence that the great Powers were not likely to be drawn into the conflict. From the field of action the news, however, became steadily more discouraging. On Thursday, Oct. 17, Turkey itself formally declared war against Servia and Bulgaria. The day before the Turkish Government had submitted to the Balkan States a demand that within 24 hours they withdraw and apologize for their collective note previously submitted to the Porte, and which was characterized as insolent. Bulgaria immediately responded with a formal declaration of war. In Turkey's formal declaration of hostilities Greece was not mentioned, and the Greek Minister was not requested to leave the Turkish capital. This was at first interpreted as an indication that Greece might be prevailed upon to sever its connection with the Balkan league. All speculation on this point was set at rest the next day (Oct. 18) when the announcement came from Athens that Greece, not wishing to detach herself from the allies, had instructed her Minister at Constantinople to communicate a declaration of war to the Porte.

The Balkan countries all pushed military operations with the greatest vigor, invading Turkish territory at numerous separate points and everywhere overwhelming Turkish arms, the losses in killed and wounded being frightful in the case of all the participants, but particularly the Turks. At the close of the month the Bulgarian army had achieved numerous victories all around Adrianople and had taken the town of Lule-Burgas, an important point in the Turkish second line of defence, thus completely surrounding Adrianople. The Greeks, the Montenegrins and the Servians were also successful in all their individual moves. There was no recurrence, however, of a panicky feeling at the European financial centres. Pretty well authenticated reports came that Russia and Austria had reached an agreement or understanding as to the course they would jointly pursue upon the termination of the war. French rentes closed Oct. 31 at 89.55, showing considerable recovery from the low point of the month, and British Consols also registered some recovery at 73 11-16.

As a result of the disturbing conditions above noted, there was a sharp rise in money rates throughout Europe and a general advance in the discount rates of all the leading banks. The Bank of Belgium on Oct. 16 raised its rate from 4 to 5% and the Bank of England on Oct. 17 also formally advanced from 4 to 5%, though for all practical purposes the advance may be said to have been made two days earlier, since on Oct. 15 the Bank refused to discount bills at less than 5%. The Bank of France on Oct. 17 moved its rate up from 3% to 3½%. On Oct. 24 the Imperial Bank of Germany raised its minimum from 4½ to 5%, and on Oct. 25 the Austro-Hungarian Bank advanced from 5 to 5½%. On Oct. 31 the Bank of France made a second advance, this time from 3½ to 4%.

Our foreign exchange market, owing to the tremendous foreign selling of American securities and the rise in

discount rates all over Europe, was highly nervous and excited all through the month.

Our stock market was under the influence of the tremendous liquidation of American securities on foreign account, and the movement for higher prices experienced a setback and was replaced by a downward movement. At the beginning of the month the market was still strong, and further advances were scored, a number of stocks making new high records for the year. Then realizing sales and liquidation on foreign account, caused by the disturbed political situation in Southeastern Europe, changed the course of values and brought some sharp breaks. Later the market again evinced an improving tendency, and many of these losses were recovered. The copper stocks at this time were strong on the increase in the quarterly dividend of Amalgamated Copper from 1¼% to 1½%. The latter part of the month there was renewed weakness and further breaks in prices on continued selling orders from abroad. As foreign liquidation had apparently been completed, it was suspected that, in part at least, this selling was not for foreign account, but that some large interests here were realizing and were using the foreign market so as to conceal their operations.

CONDITION OF THE TRUST COMPANIES OF NEW YORK STATE.

We present below comparative statements showing the condition of the trust companies of New York State at the date of the last call and of various previous calls since August 1907. We give separately the totals for the Greater New York and those for the whole State. We also add tables to indicate the changes in deposits for all the separate companies in the different boroughs of this city.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1912. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. All quotations in the column headed *"Price about January 2 1912"* were made on that date, except those in italics, which are the nearest in January 1912. The black-faced letters in the column headed *"Interest Period"* indicate in each case the month when the bonds mature.

In accordance with the new rule adopted by the New York Stock Exchange, all quotations for interest-paying bond are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2 1909.

☞*For foot-notes to tables see last page of bonds and last page of stocks.*

GENERAL QUOTATIONS
OF
BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue.* As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method, and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter *"f"* is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

3. The letter *"f"* prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

4. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are now "and interest" except where marked "f" and income and defaulted bonds.

STREET AND ELECTRIC RAILWAYS

In quoting street and electric railway bonds, we employ the same method as in quoting the bonds of steam railroads. The great majority of issues being quoted "and interest," we use no designating mark whatever where that is the case. On the other hand, we prefix the letter "*f*" where there is a deviation from this rule; in such cases the interest forms part of the price. Unless, therefore, "*f*" appears against a quotation, the buyer will understand that the accrued interest is to be added on. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where marked "f," and income and defaulted bonds.

d Price per share, not per cent. *k* Last sale. *n* Nominal. *s* Sale price. *t* Stamped stock. *x* Ex-dividend. *y* Ex-rights.

MISCELLANEOUS SECURITIES.

Quotations marked "*f*" indicate that accrued interest is included in the price. Prices not marked are "and interest" that is, purchaser has to pay accrued interest in addition to the price. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where Marked "f" and income and defaulted bonds.

a Purchaser also pays accrued dividend. *b* New stock. *d* Price per share, not per cent. *k* Last sale. *n* Nominal. *s* Sale price. *t* Ex-stock div. *x* Ex-div. *y* Ex-rights.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*f*).

The figures in the column *"to net"* indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

f Flat price. *b* Basis. Stamped 2½% until Dec. 1 1906. *n* Nominal.

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the *closing day of the month preceding the date of issue*, though often are nominal. An asterisk (*) denotes sales. The letter (*h*) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

Where Names are Printed in Italics Fuller Returns may be Found in the Advertising Columns

ACCOUNTS SOLICITED

An intimate knowledge of the demands of Banks and Bankers has been gained by the official organization of

The First National Bank of Chicago

through the experience of the past half century. In that knowledge lies the value of a connection with this institution—the ability to serve that is appreciated by financial interests from coast to coast.

Correspondence is invited relative to the facilities afforded and the accommodations extended by this old, strong and conservative banking institution.

REVIEW OF NOVEMBER.

Fundamental conditions remained unchanged during November. The outcome of the Presidential election operated in no way to check the activity in general trade. On the contrary, the volume of business grew steadily larger, and new orders were apparently placed with greater avidity than before. Nevertheless, with the election concluded, there came in the public discussions a realizing sense of the possibilities which the results involved, inasmuch as they denoted a complete change in the executive administration of the National Government and also a complete change in the economic policy of the country. The election contained no surprise, except, perhaps, that the vote cast for Theodore Roosevelt as the head of the Progressive Party proved somewhat larger than expected, and was to that extent discouraging.

With the Republican Party split, Woodrow Wilson, as Democratic candidate, received an overwhelming majority of the electoral vote. President Taft got the electors from only two States, with four votes each, namely, Utah and Vermont, while Roosevelt carried Minnesota, Michigan, Pennsylvania, South Dakota, Washington and California, having 90 votes altogether in the Electoral College, though with the election in California very close and a possibility that some of the Wilson electors might pull through. The remaining States, with 433 electoral votes, went to Mr. Wilson. The latter, however, was in a decided minority on the popular vote, getting over 1,000,000 less than Roosevelt and Taft combined, and falling 2,000,000 short of a majority when the votes of the Socialists and other candidates are counted. Roughly, Wilson got not quite 6,200,000 votes, Roosevelt came second with about 4,000,000 and Taft third with 3,300,000 votes.

The Democratic Party, besides electing its Presidential candidate in the person of Mr. Wilson, also carried the Lower House of Congress by an overwhelming majority, and succeeded in wresting from the Republicans so many of the State legislatures having new Senators to elect as to give the party control of the United States Senate, too, after the 4th of March. Hence, with the inauguration of Mr. Wilson, the Democrats will have possession of all branches of the Government and be able to carry out the party program and the legislative policies to which the party is committed. Public discussion in that respect converged mainly upon the possibilities as to the changes in tariff duties on imports, the Democrats being pledged particularly to a revision of the tariff in the direction of lower duties. As the country has been living under a protective

tariff system for half a century, with the exception of a short time during Mr. Cleveland's second term, it was natural that some solicitude should be felt as to the nature and extent of the reduction to be made in existing duties. After more or less agitation in the newspapers of the question whether it were best to wait before undertaking revision until the regular session of the new Congress in December 1913 or convene Congress in extra session soon after the accession to office of President-elect Wilson, the latter, on the evening of November 15, announced definitely that he would call an extra session not later than April 15 for the purpose of enacting a new tariff law.

As already stated, however, all this was without effect upon the growing industrial expansion. Nor did the developments in connection with the war in Southeastern Europe have any influence, apparently, to arrest the onward movement. The Balkan allies achieved further victories, the Greeks taking Salonica and the ranks of the Turks were further decimated by the ravages of cholera. In this state of things the Turks proposed to the Powers at the beginning of the month that they arrange terms of peace. The Balkan States, however, insisted that negotiations must be conducted directly with them. To this the Turks were forced to accede and a direct appeal was made to General Savoff, commanding the Bulgarian army before the Chatalja line of fortifications defending Constantinople. A temporary cessation of hostilities was then agreed upon. On Tuesday, November 19, King Ferdinand of Bulgaria, in reply to a dispatch from the Turkish Grand Vizier, sent a note reading as follows: "The Bulgarian Government after agreeing with the allied cabinets of Servia, Montenegro and Greece, informs the Porte that plenipotentaries have been appointed with instructions to arrange, with the Commander-in-Chief of the Turkish armies, the conditions of an armistice and subsequently to proceed to the conclusion of peace." The original peace terms proposed by the Balkan Allies were deemed too harsh by the Turks and occasionally it seemed as if the negotiations might fail. But Bulgaria showed a conciliatory disposition, evidently recognizing that Turkey would be able to make a stubborn defence and offer prolonged resistance in front of Constantinople, and doubtless feeling also that any further advance in Turkish territory would involve extra risks in view of the prevalence of the cholera epidemic. Thereafter the negotiations really progressed quite satisfactorily and early in December the protocol for an armistice was signed, the Greeks, however, holding off.

But while there was little fear of the renewal of the war, great anxiety was occasioned by the growing friction in the relations between Servia and Austria. More than once during the month it seemed as if this friction might lead to the involvment of the great European Powers, Russia backing Servia and Germany and Italy standing behind Austria. Austria refused consent to Servia gaining an outlet on the Adriatic and both Austria and Italy were apparently determined that Albania must be granted autonomy or remain a Turkish province with a Christian Governor. All through the month the tension between Austria and Servia intermittently increased and relaxed. Reports had it that all the Austrian reserves had been summoned to their colors and it was also rumored that Russia was mobilizing on an extensive scale. But Servia persistently refused to respect the wishes of Austria and on November 28 the Servian troops, without resistance, occupied the Port of Durazzo, which had been the objective point of the Servian campaign. Austro-Hungary, on its part, continued to make spectacular preparations in the way of mobilization, and on the evening of the day mentioned (November 28) the Parliamentary leaders at a meeting decided to permit the Austrian Premier's three bills dealing with matters connected with the military mobilization to go to committee without the customary first reading. What served to make the relations between Austria and Servia more acute was an incident concerning the Austrian Consul when the Servian troops captured the Albanian town of Prisrend. The Consul, named Prochaska, was in some way wounded and ceased abruptly to communicate with Vienna after the fall of the town. It was charged that he had been maltreated by the Servians, and Austria demanded an investigation. Fortunately the safe arrival of Prochaska at Uskub, Albania, on November 26 was reported.

On the London Stock Exchange and the Continental bourses general recoveries from the previous month's excitement and weakness were noted with the prospect of the early termination of the war, though apprehensions regarding possible trouble on account of the disturbed relations between Servia and Austria at times checked the recovery; but such reactions were only temporary. Considerable repurchases were made of American securities sold the previous month on European account. British consols November 30 were reported at 75 7-16, against 73 11-16 October 31. The Bank of Germany on November 14 advanced its minimum discount rate from 5 to 6% and on November 15 the Bank of Austro-Hungary made a similar advance and the Bank of Denmark moved up from 5 to 5½%. Advances in rates were likewise made by the East Indian banks.

An important event of the month was the award announced on November 25 of the arbitration board which had been appointed to pass upon the demands of the locomotive engineers on the roads east of Chicago and north of the Ohio River, for increased wages. The award partook of the characteristics of arbitration decisions in general, in being a compromise. The arbitrators announced that they had been unable to arrive at a conclusion regarding the ability of the roads to pay increased compensation, but that they had reached the conclusion that there should be recognition of the principles of a minimum standard of wages to apply to all roads irrespective of earning power or financial ability. As a result of this standardization of wages, the pay is to be alike on all roads for the same class of service, the standard on the smaller roads being raised to that of the larger roads, and it is estimated that this would involve a yearly addition of only $2,000,000 to $3,000,000 per year instead of the $7,172,546 per year that would have been added to the expenses of the carriers had the demands of the engineers been granted in full. The weaker roads, however, are called upon to bear almost the whole of the burden. The award is made to date back to May 1 1912.

The New York money market tightened during November. After the bound in call-loan rates October 31 to 8%, the rate November 1 went still higher, touching 9%. The interior demand for funds was active and there was severe calling of loans in view of the 1st of November disbursements. After this the tension was somewhat relaxed, but the latter part of the month as high as 12% was paid for call money on two days and on November 29 some call money was put out at 20%.

The foreign exchange market showed a downward dip in rates the greater part of November and the latter half of the month there was a resumption of gold imports, about $2,250,000 being engaged in the open market in London. The weakness was due to a pressure of grain and cotton bills and in

fact merchandise bills of all descriptions. The growing tension in our local money market was also an important factor in the decline.

Notwithstanding the further expansion in trade and some remarkably encouraging returns of railroad earnings for the month of October, the course of the stock market during November was weak and a pretty general decline of prices ensued. Before the election, November 5, the market was inert, but on the day after that event, namely November 6, there was as the first effect quite a rise in prices, with St. Paul common the feature in the upward movement. American Beet Sugar, however, was even on that day decidedly weak and suffered a big break, owing to fears of adverse tariff legislation as the result of Democratic control of all branches of the Government. After November 6 a general weakening tendency developed. While the country's industries appeared indifferent to the prospects of adverse tariff legislation, the stock market seemed to think that tariff legislation might prove unsettling and there were also fears that with the Democrats in undisputed control such legislation might be more radical than was desirable. In the last week of the month, the award of the arbitration board in the case of the demands of the Locomotive Engineers was not entirely viewed with favor, especially as the carriers were confronted with demands for increases in wages by other classes of employees. Nor was the growing tightness of the money market a stimulus to rising prices. While most of the industrial stocks evinced a downward tendency, U. S. Rubber shares were an exception, on reports of large earnings by the company.

CONDITION OF THE TRUST COMPANIES OF NEW YORK STATE.

We present below comparative statements showing the condition of the trust companies of New York State at the date of the last call and of various previous calls since August 1907. We give separately the totals for the Greater New York and those for the whole State. We also add tables to indicate the changes in deposits for all the separate companies in the different boroughs of this city.

NEW YORK STOCK EXCHANGE

MONTHLY AND YEARLY RECORD

The following tables furnish a complete record of the New York Stock Exchange transactions for the past month and the year 1912. They need no extended introduction, as they are self-explanatory. The tables embrace every security (excepting only State bonds) dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. All quotations in the column headed *"Price about January 2 1912"* were made on that date, except those in italics, which are the nearest in January 1912. The black-faced letters in the column headed *"Interest Period"* indicate in each case the month when the bonds mature.

In accordance with the new rule adopted by the New York Stock Exchange, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective January 2 1909.

☞ *For foot-notes to tables see last page of bonds and last page of stocks.*

GENERAL QUOTATIONS
OF
BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.

2. Quotations from all Stock Exchanges are as near as possible for the *closing day of the month preceding the date of issue.* As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method, and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter *"f"* is prefixed to the price, he must pay accrued interest *in addition* to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.

3. The letter *"f"* prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

4. Stock prices marked thus (*d*) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.

5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.

7. The black-faced type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE.—All bond prices are now "and interest" except where marked "I" and income and defaulted bonds.

STREET AND ELECTRIC RAILWAYS

In quoting street and electric railway bonds, we employ the same method as in quoting the bonds of steam railroads. The great majority of issues being quoted "and interest," we use no designating mark whatever where that is the case. On the other hand, we prefix the letter "*f*" where there is a deviation from this rule; in such cases the interest forms part of the price. Unless, therefore, "*f*" appears against a quotation, the buyer will understand that the accrued interest is to be added on. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where marked "*f*," and income and defaulted bonds.

d Price per share, not per cent. *k* Last sale. *n* Nominal. *s* Sale price. *t* Stamped stock. *x* Ex-dividend. *y* Ex-rights.

MISCELLANEOUS SECURITIES.

Quotations marked "*f*" indicate that accrued interest is included in the price. Prices not marked are "and interest" that is, purchaser has to pay accrued interest in addition to the price. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest and no designating mark is employed.

NOTICE.—All bond prices are now "and interest" except where Marked "f" and income and defaulted bonds.

a Purchaser also pays accrued dividend. *b* New stock. *d* Price per share, not per cent. *k* Last sale. *n* Nominal. *s* Sale price. *t* Ex-stock div. *x* Ex-div. *y* Ex-rights.

STATE AND MUNICIPAL BONDS.

It is not the custom in quoting municipal bonds to include accrued interest in the price given. Hence this accrued interest must in all cases be added on. There are a very few instances which form exceptions to the rule—that is, where the prices given are flat prices, the accrued interest having been taken into account in making them. These are indicated by a special mark, thus (*f*).

The figures in the column *"to net"* indicate the basis on which the securities sell or the interest rate which the securities, if held to maturity, will net to the purchaser at the present market price.

Bonds	Bid.	Ask.	To Net.

f Flat price. *b* Basis. Stamped 2½% until Dec. 1 1906 *n* Nominal

BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the *closing day of the month preceding the date of issue*, though often are nominal. An asterisk (*) denotes sales. The letter (*h*) prefixed to a price indicates that the figures show the book value.

Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

Where Names are Printed in Italics Fuller Returns may be Found in the Advertising Columns

RAILWAY EARNINGS

SECTION OF THE

COMMERCIAL & FINANCIAL CHRONICLE

Copyrighted in 1912 according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C.

LIBRARY JUL 23 1912 UNIVERSITY OF TORONTO

VOL. 95. NEW YORK, JULY 20, 1912. NO. 2456.

THIS entire publication is devoted to a presentation of the reports of earnings and expenses of United States railroads for the latest month (May) and for the fiscal year to date, including said month. The table embraces every steam *operating* railroad in the country which is obliged to make monthly reports to the Inter-State Commerce Commission at Washington. Up to Jan. 1 1912 the Commission required monthly returns from every road, no matter how small its earnings. Since that date roads earning less than $100,000 per annum have been relieved from the necessity of filing returns. Leased lines not operating their own road do not make returns.

Sworn Returns. The figures are a transcript of the sworn returns on file at Washington. They have the further advantage of uniformity of method and classification. Every company is obliged to make up its return on the same basis and in the same way as every other company.

Earnings Our Specialty. The "Chronicle" has always made a specialty of weekly and monthly reports of railroad earnings, and for over forty-five years its weekly and monthly summaries have been everywhere accepted as authoritative. The present publication is in continuation of this work and to aid the Inter-State Commerce Commission in the one direction in which lies its chief usefulness—the field of publicity.

Full Details. These Inter-State Commerce returns also make it possible for us to present full details of both the revenues and the expenses. Besides reporting total gross earnings, we show separately the passenger and the freight revenues. In the case of the expenditures we report the outlays for both maintenance of way and maintenance of equipment as well as the traffic and transportation expenses. We also show the net revenue from outside operations. Lastly, we give the taxes and the miles of road on which earnings are based.

Cents Discarded. The cents we have necessarily been obliged to discard altogether, and if in any case the results should happen to vary a dollar, one way or the other, from exact proof, the reason for the variance will be found in that circumstance.

Company Returns Also Given. To make this publication absolutely complete, we add several pages at the end to show also the figures issued by the companies themselves, where they are made up on a basis different from that of the Commerce returns, or where they give fixed charges in addition to earnings, or where they have a separate and distinct fiscal year.

Former Returns to be Continued. The matter contained in this extra and novel publication is entirely additional to the comprehensive reports of earnings we furnish in the "Chronicle" from week to week. All the returns of the leading roads, and also all weekly figures of gross earnings, are printed regularly and promptly in the "Chronicle" as soon as received. But in addition we issue once a month—say about the 20th—this special publication, furnishing a sort of compendium of earnings in which we bring together all the returns for the latest month for which the statistics are available.

Only for Subscribers. As in the case of our numerous other Supplements or "Sections," all of which are expensive publications, the "Railway Earnings Section" will be furnished only to "Chronicle" subscribers. These will receive it free of charge, one copy going with each subscription. It will be impossible to obtain copies in any other way, as none will be printed for general sale.

INTERSTATE COMMERCE COMMISSION RETURNS

In the following we show the figures for the latest month of every road which is obliged to make monthly returns of earnings and expenses to the Inter-State Commerce Commission at Washington. We give first the roads that are under the control of the larger systems, and then add the returns of all other roads, arranged in alphabetical order. In a subsequent part of this publication—pages 30 to 32—we also give the *Company* returns where these differ in any way from the Commerce Commission returns or embrace more facts than are contained in these latter.
